

# CHANGE MAKER SERIES

Presented by the *Department of Mathematics & Statistics*  
In collaboration with *Women in STEM and Math Club*

---

Join us for a colloquium talk and conversation with:

## Dr. Candice Price

Dr. Candice Price is a mathematician and an assistant professor at Smith College. Born and raised in California, Candice has a bachelor's from Chico State and a master's from San Francisco State, both in mathematics. She earned her doctoral degree (2012) in mathematics from the University of Iowa under the advisement of Isabel Darcy. Her area of mathematical research is in the application of mathematics to biology primarily in DNA topology, knot theory applied to the structure of DNA. She is an advocate for greater representation of women and people of color in the STEM fields and is a founder of the Underrepresented Students in Topology and Algebra Research Symposium (USTARS) and the website Mathematically Gifted and Black.
