

MATH 161—WRITING ASSIGNMENT 02

Due: Sunday September 16—5:00PM

Getting Started

1. Read the [Learning L^AT_EX](#) document here:

<https://v2.overleaf.com/read/zkfgxndfnbcb>

2. Get the template for this assignment. Here's how to do it:

- Go to <https://v2.overleaf.com/> (formerly: <https://www.sharelatex.com>), and **make sure you are logged in**.
- In a new window, go here:

<https://v2.overleaf.com/read/hvcsgmppvdfd>

- Click on the menu icon in the upper-left and select “Copy Project”
- When ask for a name, choose something like “Math 161 - WA 02” and click “Copy”
- When this completes you will be back in your own workspace (instead of mine).
- After solving the problem(s), type them up using the template.
- Email me your final draft.

3. Let me know if you have any questions!

Please do one, and only one, of the following problems. The template linked to above has both problems in it as well as an example proof. Please delete the one you don't do, and also delete the example.

1. §1.4.1, #4
2. §1.4.1, #5

You will see in the template that I got you started, but feel free to erase what I wrote.
